Document Object Model

Tree structure of an HTML page. Each box is a node and can be selected.

DOM Selectors

`getElementsByTagName()`

`getElementsByClassName()`

`getElementById()`

`querySelector()`

`querySelectorAll()`

A yellow square containing the letters 'JS' in a large, bold, dark blue font, representing JavaScript.

JS

Literals/Types/ETC

String: Zero or more characters enclosed in double (") or single (') quotation marks

Number: Integer or floating-point (decimal) in base-10

Boolean: true or false

Object: List of key, value pairs enclosed in curly braces {}

Function: Block of code that performs a task

Array: List of zero or more of any of the other types enclosed in square brackets []

https://developer.mozilla.org/en-US/docs/Web/JavaScript/Guide/Grammar_and_types#object_literals

The image shows the JavaScript logo, which consists of the letters 'JS' in a bold, dark blue, sans-serif font. The logo is centered within a solid yellow square background.

How to actually learn any new programming concept
